AcuCort appoints Jonas Jönmark as new CEO

AcuCort AB (Spotlight Stock Market: ACUC) today announces that the company has finalized the process to recruit a permanent CEO and that Jonas Jönmark will assume the CEO position on August 9, 2020.

Jonas Jönmark has an MBA degree from Lund University, Sweden. He has more than 20 years' experience from leading positions as well as the CEO role in the pharmaceutical industry and the life science sector. His career has included big international pharma companies such as Pfizer AB, Astellas Pharma A/S and Astra Zeneca Sweden, but also smaller start-up companies such as Life Science Support AB and Alteco Medical AB.

Jonas has a broad experience from international product launches, establishment of sales- and distribution channels, commercial partnerships, pricing and reimbursement negotiations with authorities as well as international business development in life science.

"I am very proud and humbled to be entrusted with the future development of AcuCort. I am looking forward to complete the market approval application for ISICORT[®], the company's first product, and the possibility to lead a successful product launch on the market," says AcuCort's incoming CEO Jonas Jönmark.

"I am very pleased with the recruitment of Jonas Jönmark as CEO of AcuCort. Jonas has built a solid competence in the commercialization of pharmaceutical products and his experience matches very well with AcuCort's needs, given a possible market approval in Sweden of the company's drug candidate ISICORT[®], says Ebba Fåhraeus, Chairman of the Board of AcuCort AB.

About AcuCort AB (publ)

AcuCort develops and commercializes ISICORT®, a new fast-dissolving oral film to put on the tongue, based on a well-known cortisone substance – dexamethasone. ISICORT® is a smart product in a new, innovative, patented and user-friendly dosage form primarily for the treatment of severe and acute allergic reactions, croup in children and chemotherapy-induced nausea and vomiting (CINV). The bioequivalence study that forms the basis of the application for marketing approval in Europe was carried out with positive results and a national hybrid application has been submitted to the Swedish Medical Products Agency. Altogether, this strengthens the company's assessment that the time to commercialization of ISICORT® may be relatively short. AcuCort (ticker: ACUC) is listed on the Spotlight Stock Market in Sweden.
